My dear Mr. Garrison

I have never thanked you for the great kindness you did me in writing to me just before leaving Liverpool and enclosing your valuable photograph, which takes its place among my most honoured portraits in our album. I trust you will believe me that I was delighted when your letter came and most heartily do I thank you for it & the likeness. - I hope you are enjoying a truly happy time with your dear family at this festive season, if British traditions have spared old Father Xmas to us; and if all is in our favour, I feel convinced that we shall be as warmly welcomed in a circle where such high principle and a cordent practice have been always maintained. My wife & my little one rejoice
